We are at a critical juncture in human history. The climate crisis is upon us, and we must act now to mitigate its effects. One of the most important things we can do is to design and build sustainable cities.

Planet Architects Of The Apocalypse is the ultimate guide to designing and building sustainable cities. This book will teach you everything you need to know about sustainable architecture, urban planning, and climate change.

Whether you are an architect, a planner, a developer, or simply a concerned citizen, Planet Architects Of The Apocalypse is a must-read. This book will empower you with the knowledge and tools you need to create a more sustainable future for our planet.

What you will learn in this book:

- The principles of sustainable architecture
- How to design and build green buildings
- The importance of urban planning
- How to create sustainable cities
- The impact of climate change on cities

- How to adapt cities to climate change

Endorsements

"Planet Architects Of The Apocalypse is a must-read for anyone who cares about the future of our planet." - Al Gore

"This book is essential reading for anyone who wants to create a more sustainable future for our cities." - Jane Goodall
