In the year 2254, the sun is dying. The Earth is facing a global ice age, and humanity is on the brink of extinction. The only hope for survival lies in a daring mission to steal the sun from a nearby star system.

The spaceship Starflight is assembled, and a crew of six astronauts is chosen to carry out the mission. The crew is led by Captain John Carter, a brilliant scientist and a fearless leader. The other members of the crew are:

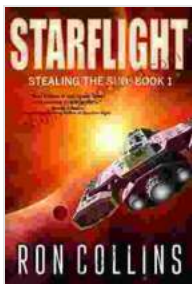

- Dr. Elizabeth Chen, a brilliant astrophysicist
- Commander Mike Rodriguez, a skilled pilot and a loyal friend
- Engineer Sarah Jones, a genius at solving problems
- Dr. Mark Lee, a medical doctor and a caring soul
- Lieutenant Commander Maria Sanchez, a skilled fighter pilot and a fierce warrior

The crew of the Starflight faces many challenges on their mission. They must navigate through dangerous space storms, battle alien warships, and overcome their own personal demons.

But through it all, they never give up hope. They know that the future of humanity depends on their success.

Starflight: Stealing the Sun is an epic space adventure that will keep you on the edge of your seat from beginning to end.
