In the sleepy town of Naples, Florida, where the sun-drenched beaches and luxurious mansions create an idyllic veneer, a dark and disturbing tale unfolded in 2010. A wealthy businessman named Gary Triano was found dead on a secluded stretch of sand, his body bearing the chilling marks of what appeared to be a brutal murder.

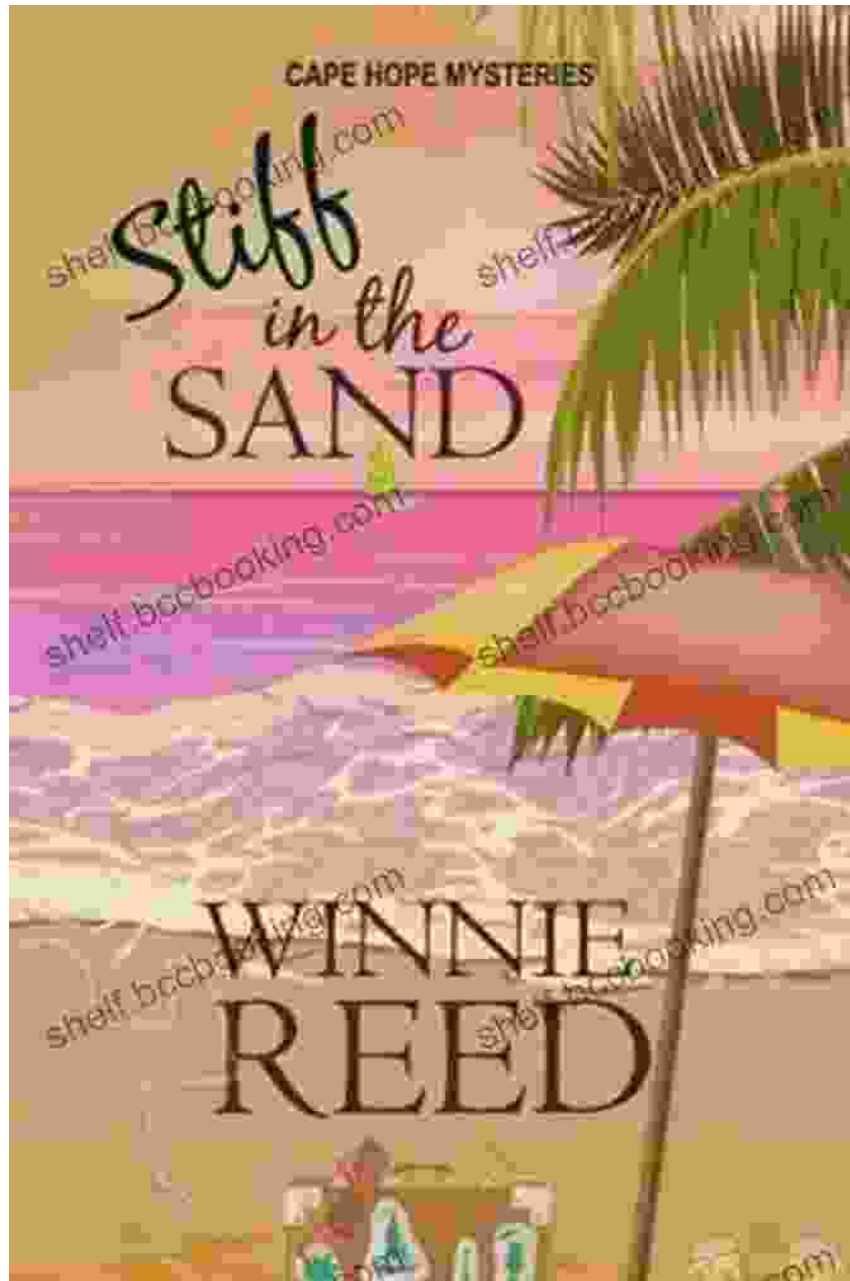

The victim, a self-made millionaire who had built a successful real estate empire, was described by those who knew him as a charming and charismatic man. His sudden and unexplained death sent shockwaves through the community, and authorities were baffled by the lack of apparent motive.

As the investigation delved deeper, a twisted web of secrets began to unravel. Through meticulous forensic examination, detectives uncovered evidence of Triano's illicit affairs, tangled financial dealings, and a secret life that had remained hidden from his closest associates.

The ensuing trial gripped the nation as prosecutors presented a compelling case against Triano's former mistress, Donna Marie Debreceeni, accusing her of plotting his murder with her lover for financial gain. The trial revealed a complex and chilling tale of love, betrayal, and greed, as the jury weighed the evidence and grappled with the mystery surrounding Triano's untimely demise.

In this gripping account, author and investigative journalist Paul Kix follows the trail of clues that led to Debraceni's conviction. Through exclusive interviews with key figures involved in the case, including detectives, forensic experts, and those who knew the victim, Kix paints a vivid portrait of the events that unfolded.

With its meticulously researched details and compelling narrative, "Stiff in the Sand" offers a captivating window into the world of forensic investigation and the dark secrets that can lurk beneath a seemingly idyllic surface. It is a true-crime masterpiece that will leave readers on the edge of their seats, questioning the boundaries of love, greed, and the lengths to which some will go to fulfill their sinister desires.
