In today's competitive business environment, emotional intelligence (EI) is no longer a nice-to-have—it's a must-have for CEOs and other leaders who want to succeed.

EI is the ability to understand and manage your own emotions, as well as the emotions of others. It's about being able to build strong relationships, communicate effectively, and resolve conflict peacefully.

CEOs with high EI are more likely to be successful in their roles. They're able to create a positive and productive work environment, motivate their employees, and make sound decisions under pressure.

In his book, *The CEO Secret Weapon*, author and leadership expert Travis Bradberry reveals the secrets of emotional intelligence and how you can use it to achieve success in your own career.

Bradberry draws on the latest research in neuroscience and psychology to provide practical strategies for developing your EI. He shows you how to:

- Identify and manage your own emotions
- Understand and respond to the emotions of others
- Build strong relationships
- Communicate effectively
- Resolve conflict peacefully
