At the heart of the rise of the radical right lie a cabal of wealthy benefactors, individuals who have poured vast sums of money into promoting their extreme ideologies. These billionaires, operating behind a veil of secrecy and using sophisticated financial maneuvers, have sought to influence

elections, manipulate public opinion, and amplify the voices of right-wing extremists.

The book meticulously traces the connections between these billionaires and the organizations they support, revealing a complex web of influence that extends into every corner of society. From funding think tanks that churn out right-wing propaganda to supporting political action committees that target vulnerable voters, these individuals have played a decisive role in shaping the political climate.
